John is it the highest line or the lowest line? Do you have an address for reference?

Kind regards,

Hi,

Yesterday I checked out the newly painted wall on Sepulveda between 83rd and 84th Streets.

1. Derryl, It looks to me like the paint on the wall of the fourth house down from the 83rd Street corner is very thin and could use a touch up. Please take a look at it during the day time and let me know what you think.
2. I would like to meet with maintenance people to have them trim some of the vines and tree branches that are overhang the wall. Don, do you have their schedule as to when they will be there?
3. Someone has helped them self to 7 plants at the south end of the project, leaving seven holes to mark the spots. I think Bisher is responsible for replacing those plants. I know there is a time deadline for this and I hope it is still within the time frame for him to replace them. We will be meeting with him on Monday to locate the placement of the four trees. We can talk with him about this then.
4. Fred, there is an electrical or telephone line that is hanging down from the pole, draped above the sidewalk and over the bushes into the back yard of the residents at the last house at 84th Street. A tall person could jump up and touch it with his fingers. Not a great thing to happen. would you please have some one come out and take care of this?
